

COMP 4350 Project Iteration 3

Group D (Votee)

Implementation and deployment: (5/8)

- Fully working Android native app for the features of all iterations so far (1/4)
 - It should work both on the tablet devices and emulator
 - The app should use the AWS service

Getting an error while trying to login into the app ("Error contacting server"). You have not implemented all your web features in your android app. (-3) aside from that App is being built and run on both device and emulator.

- End-to-end, fully working (back-end, front-end, DB, and AWS) features for the user stories planned for iteration 3. (4/4)
 - Correctly deployed service on AWS

Please provide the link to your AWS for next iteration for verification purpose.

Testing: (8/8)

- Android JUnit testing (2/2)
- Robotium test (at least one per user story) (2/2)
- Back-end unit tests for the new and old classes (1/1)
- Front-end unit tests for the new and old classes (e.g., using Jasmin) (1/1)
- At least one integration test per detailed story (1/1)
- Selenium. at least one automated end-to-end test per user story. (1/1)

No issue.

Design and documentation: (5.5/6)

- Good programming practices (1/1)
- Proper design patterns (2/2)
- Normal level of refactoring in the code-base toward a better design, in every iteration. (0.5/1)

Basically, your project structure is messy, you need properly package your documents, your logs (SLACK) and any other configurations. (-0.5) "This is from your previous iteration which is not yet fixed".

- Proper Android code-base (1/1)
- a RESTful service (or any alternative) (1/1)

- A missing API documentation (or missing info such as the location of the service and how to use it). **(0/-1)**
- A missing installation guide for anything that is not in the documentation, like any special setting if required. **(0/-1)**

Process and planning:

(3/3)

- Team's communication and members' contributions **(2/2)**
 - Look at the logs of the meetings (or if they use external messaging tools, then a log of those tools).
- Following the plan **(1/1)**
 - The plan should be followed and be updated with the details about the next iteration (detailed stories plus their cost and priorities).

No issue.
